# PALAEONTOLOGY FACT HUNT

Have you heard of Palaeontology? Do you know what it is? Now's your time to find out!

Your task is to research palaeontology, and see if you can find the answers to the questions on the following pages!

Good Luck!

1

What is Palaeontology the study of?

Why do Palaeontologists have to use specialist tools?

2

3

What do fossils help Palaeontologists understand?

What do Palaeontologists try to do with this knowledge?

4

What do Palaeontologists find?  
(name 5 things!)

What do Palaeontologists have a  
hard time figuring out?

How old must something be to be  
considered a fossil?

What is needed to see a micro-  
organism?
